

# SYNERGY

2024-2027 STRATEGIC PLAN

It's Actually About  
Graduating Awesome Humans

**"The whole is greater than the sum of its parts"**

*Synergy can be defined as the dynamic and harmonious interaction between different elements or entities, resulting in a combined effect that exceeds the mere sum of their individual contributions. It emphasizes the enhanced efficiency, effectiveness, and creativity that arise from collaborative efforts, where diverse components complement each other to achieve outcomes that are greater than what could be achieved independently.*
