**RATIONALE:**

The Society Board of Edge School is respectful of the legislative authority granted it as a not-for-profit educational organization and is committed, through its membership, structure, and processes, to advance the school’s mission, vision, and long-term viability. The Board accepts responsibility for all aspects of the organization, including overseeing its operations and holding the CEO accountable for delivering on the mission of the organization. Further, the board recognizes its unwavering obligation to make decisions that are in the organization’s best interests.

The Board recognizes that it holds the responsibility for appropriate fiscal management by ensuring that:

- Short and long-term financial jeopardy is avoided;
- Budget-planning assumptions are established;
- Expenditures from reserve funds are pre-approved as are transfers between operating reserves, capital reserves and committed operating surplus; and
- Financial and accounting best practices are adhered to.
- The Board also recognizes that it must engage effectively in strategic decision-making and generative governance practices to achieve its desired organizational outcomes.

The board, as a corporate entity, and each of the board directors, recognizes and is committed to a *duty of care* to the organization (that is, acting with the competence and diligence that a reasonably prudent person with similar knowledge and expertise would exercise in comparable situations) and to a *duty of loyalty* (that is, acting honestly and in good faith in the best interests of the organization).

The Board acknowledges and supports that the employer relationship with employees, volunteers, delegates, students, and third-party service providers is founded upon trust and commitment to the organization’s mission and activities. Individual members must therefore remain cognizant of the fundamental board principles outlined above, including those of neutrality and impartiality. Board Members must declare any conflicts of interest and must recuse themselves from any decisions related to matters where there are conflicts of interest.

Recognizing that good governance is key to the success of the school operation, the Board consistently endeavors to govern through policy leadership, which includes not only governance policy development and approval but also the ongoing monitoring and evaluation of policy implementation, thus supporting the Board’s efforts in ensuring the sustainability and continuing growth of the school.

As a Board aspiring to “best practices” in governance, we attend to matters across a range of fiduciary leadership, strategic leadership and generative leadership priorities, consistent with those identified below.
