## Alberta Education Survey

Every year, as a part of the Alberta Education Assurance Framework, a survey is sent out to parents of K-12 students in Alberta. These survey results are combined with those from other measures (like our 3-sphere survey) to provide key information about how our school is doing. Results show which measures have improved, which have remained constant and which have declined. It allows everyone – parents, teachers, school administration, students and the province – to celebrate successes and respond to challenges together.

As a school, we share these results and plans for improvement with the community so you can review them in our Annual Education Results Report. The results point out successes and areas of concern from both a local and provincial perspective.

We wanted to pass on a request to complete the Alberta Education Assurance survey for this year. Use our **Random Access Code** (that was attached to the email you received from the school) to login and complete the survey here. You will receive a different code for each of your children (if you have more than one child at the school).

The deadline for online submission is **March 6, 2026**. We would love to have full participation this year!

We would like to make **an important request** that helps to ensure that the data results are beneficial. If you respond 'don't know' to a particular question, it counts in the same category as 'dissatisfied'. If you do not know how to respond to a question and you do not want it to count as a negative response, please **skip the question**.

Thanks for taking the time to complete the survey and do not hesitate to reach out if you have any questions.
